

# ROUGHOUT GPR Collision System

The KECO RoughOut glue pull repair system allows technicians to repair medium to large damage. This system contains all the items necessary to achieve basic pulls that will ultimately require additional work and body filler to finish.

## Rough Out Capability

As you move through the entire continuum the KECO RoughOut GPR System provides you with the tools to rough out damage

## RoughOut Toolset

The KECO RoughOut GPR Collision System provides a toolset ideal for technicians looking to simply rough out damage that will ultimately need a filler for finishing

## Medium to Large Damage

K-Beam<sup>®</sup> and Slide Hammers provide the ability to make double-action pulls and the K-Bar<sup>®</sup> performs leverage pulls that move tons of metal FAST

## Knockdown & Blending

JVF Body Hammers and Slappies are great for knocking down crowns and releasing tension while repairing damage

## Tab Selection

Includes medium sized crease tabs as well as large and x-large Centipede and Supertabs in all the most popular shapes, sizes, and materials

## Storage & Organization

KECO's GPR Cart, TabPrints organizer, along with the Z-Channel platform store glue gun, heat gun, thermometer, and glue to keep tools and tabs clean and organized in any shop
